

REMARKS

The Office Action raised an issue with regards to our reissue Declaration pursuant to 37 CFR §1.175 and MPEP §1414.

Applicant has, accordingly provided a Supplemental Reissue Application Declaration which is believed to more than adequately respond to these issues and to place the case in condition for allowance.

MPEP §1414 II(B) requires an applicant to specify only one error upon which the reissue is based. However, in view of the request set forth on Page 2 and the fact that our claims are based on both claimed subject matter that was less than the patentee had a right to claim, and also subject matter which was more than a patentee had a right to claim, applicant has specified the errors that justify the issuing of a reissue application.

If there are any further requirements on this matter, the undersigned attorney would appreciate a telephone conference to expedite the prosecution of this case.

Applicant has also, upon further review of the present claims, made a correction to the dependent Claim 4 to make it consistent with the independent Claim 1, and has deleted Claims 39 and 56 to prevent any redundancy with their amended independent claims. Claim 2 and 3 are also amended to be consistent with Claim 1.

It is respectfully submitted that the application is now in condition for allowance and early notification of the same is requested.

If there are any questions with regards to this matter the undersigned attorney would appreciate a telephone conference.

Very truly yours,

SNELL & WILMER L.L.P.
